

Changes to existing programs are implemented utilizing insights from the College's Curriculum Committee as well as established catalog revision processes. These processes include reviews from multiple stakeholders such as faculty, instructional administration, Student Affairs, the Office of Marketing & Communications, the Office of Accreditation and Planning, the Administrative Team, and the Board of Governors where appropriate. The following procedures are identified to monitor and report substantive changes in a timely manner to Nebraska Coordinating Commission for Postsecondary Education (CCPE),

If prior approval is required, the College's Accreditation Liaison Officer submits a program application to the HLC. Based on the type and complexity of the request, HLC will determine the appropriate [review process](#) and notify the College of its decision accordingly. If HLC notification is required, the Accreditation Liaison Office should update its degree program information in its next [Institutional Update](#).

5. Developing customized Pathways or abbreviated/modified courses for academic programs as described in the Prior Learning Assessment policy

When SCC develops customized pathways or abbreviated/modified courses (or another program that either accommodates a student's existing knowledge from experiences such as employment or military services or closes competency gaps between demonstrated prior knowledge and the full requirements of a particular course or program), its Accreditation Liaison Officer should complete a [screening form for changes to existing](#)
