Trauma Nursing Core Course

The Trauma Nursing Core Course, developed by the Emergency Nurses Association, is designed for registered nurses who have at least six months of clincial nursing experience in an emergency care setting. Other health care professionals may audit the course.

Trauma nursing, as a discipline, refers to the process and content of the various roles nurses have in the care of the trauma patient. The purpose of TNCC is to present knowledge, refine skills and build a firm foundation in trauma nursing. The Trauma Nursing Core Course consists of a combination of lecture time and skills stations.

Objectives:

- Identify the common mechanisms of injury associated with trauma
- Describe the nursing assessment, both primary and secondary, of patients with trauma
- Describe the appropriate interventions for patients with trauma
- Describe mechanisms for evaluating the effectiveness of nursing interventions for patients with trauma

Tues., Oct. 22 & Wed., Oct. 23, 2024
